Dana Point Harbor Maintenance Dredging Project Update

The County of Orange has awarded a contract for the 2015/2016 Maintenance Dredging Project, mobilization and staging has already begun in the Pier parking lot.

The contractor has fenced the Construction Staging Area and will be using this space, as well as a portion of Baby Beach, to connect sections of the discharge pipe to be used during dredging. Additional sections of pipe will be stored in the Harbor along the seawall as indicated in the attached diagram.

This work is in preparation of the Hydraulic Dredge arrival to the Harbor. More information will be provided as the dredging schedule is updated.
