**Narratives****Summary of Distribution and Uses of NSP Funds:**

The County of Orange received an allocation in the amount of \$1,004,948 in NSP 3 funding and intends to purchase a site of up to five (5) acres in an amount not to exceed \$5 million to build a campus model with emergency beds, permanent housing and a multi-service center. The County will apply this funding for housing individuals and families whose incomes do not exceeds 50% of the area median income.

**How Fund Use Addresses Market Conditions:**

The County utilized the HUD NSP 3 mapping tool to locate unincorporated areas within four census tracts. The HUD User Data site has provided supporting data that identifies these areas as the highest risk and thus the areas of greatest need. Since the State of California minimum foreclosure score is 17, NSP eligible projects must have an average foreclosure score of 17. The Countys first priority is to locate eligible abandoned and/or foreclosed properties within an eligible census tract in the unincorporated County. The County has identified four eligible census tracts within the unincorporated area of the county. HUD User Data provided by the NSP3 Mapping tool server describes these target communities in the following manner:

Census Tracts: 087701, 087703 & 087806 (unincorporated areas within)

### **Ensuring Continued Affordability:**

The County will require that an affordability covenant be recorded against the property requiring affordable rents for the low income tenants per HOME guidelines.

### **Definition of Blighted Structure:**

In the October 19, 2010 Notice, HUD has defined a blighted structure when it exhibits objectively determinable signs of deterioration sufficient to constitute a threat to human health, safety, and public welfare. The Notice also indicates that grantees must define blighted structure in the context of state or local law. As such, the following provides the definition of blighted structure under the Amended State of California Health and Safety Code(Effective January 1, 2007):

#### **Section 33030**

(a) It is found and declared that there exist in many communities blighted areas that constitute physical and economic liabilities, requiring redevelopment in the interest of health, safety, and general welfare of the people of these communities and of the state.

(b) A blighted area is one that contains BOTH of the following:

(1) An area that is predominately urbanized, as the term is defined in section 33320.1, and is an area in which the combination of conditions set forth in Section 33031 is so prevalent and so substantial that it causes a reduction of, or lack of, proper utilization of the area to such an extent that it constitutes a serious physical and economic burden on the community that cannot reasonably be expected to be reversed or alleviated by private enterprise or governmental action, or both, without redevelopment.

(2) An area that is characterized by one or more conditions set forth in any paragraph of subdivision (a) of Section 33031 and one or more conditions set forth in any paragraph of subdivision (b) of Section 33031.

(c) A blighted area that contains the conditions described in subdivision (b) may also be characterized by the existence of inadequate public improvements or inadequate water or sewer facilities.

#### **Section 33031**

(a) This subdivision describes physical conditions that cause blight:

(1) Buildings which are unsafe or unhealthy for persons to live or work. These conditions can be caused by serious building code violations, serious dilapidation and deterioration caused by long term neglect, construction that is vulnerable to serious damage from seismic or geologic hazards, and faulty or inadequate water or sewer utilities.

(2) Conditions that prevent or substantially hinder the viable use or capacity of buildings or lots. This condition may be caused by buildings of a substandard, defective or obsolete design or construction given the present general plan, zoning or other development standards.

(3) Adjacent or nearby incompatible land uses that prevent the development of those parcels or other portions of the project area.

(4) The existence of subdivided lots that are in multiple ownership and whose physical development has been impaired by their irregular shapes and inadequate sizes, given the present general plan, and zoning standards and present market conditions.

(b) This subdivision describes economic conditions that cause blight:

(1) Depreciated or stagnant property values.

(2) Impaired property values, due in significant part, to hazardous wastes on property where the agency may be eligible to use its authority as specified in Article 12.5 (commencing with Section 33459).

(3) Abnormally high business vacancies, abnormally low lease rates, or an abnormally high number of abandoned buildings.

(4) A serious lack of necessary commercial facilities that are normally found in neighborhoods, including grocery stores, drugstores, and banks and other lending institutions.

(5) Serious residential overcrowding that has resulted in significant public health or safety problems. As used in this paragraph, overcrowding means exceeding the standard referenced in Article 5 (commencing with Section 32) of Chapter 1 of Title 25 of the California Code of regulations.

### **Definition of Affordable Rents:**

The County will use the HOME Program Rent definitions which are also in accordance with the County of Orange Multifamily NOFA requirements.

### **Housing Rehabilitation/New Construction Standards:**

The County has established written rehabilitation standards (Orange County Housing Opportunities Overlay Manual) for rental housing opportunities and will comply with all applicable state and local laws, codes, and other requirements. The regulations permit the development of affordable housing in commercial and industrial districts, as well as certain residentially-zoned arterial highway frontage parcels, in the unincorporated areas of Orange County. This residential use is consistent with the Orange County Zoning Code and Orange County General Plan and is therefore by right. The Housing Opportunities Manual will serve to facilitate the development of affordable housing within commercial and industrial districts by providing design guidelines and rehabilitation standards. These standards are also applicable to any and all development projects that are deemed 100% affordable.

### **Vicinity Hiring:**

County will adhere to the Section 3 Guidelines.

### **Procedures for Preferences for Affordable Rental Dev.:**

The County plans to leverage NSP 3 funds with funds available through other federal, state and/or local funding programs to provide additional emergency & permanent housing units.
