OC Animal Care Releases Free OC PetTrack Mobile App to Help Save Shelter Pets

(Orange, CA) OC Animal Care launched a new application for iPhone, iPad and Android this week that will change the way pet owners in Orange County search for their lost pets and connect with adoptable pets. The OC PetTrack app provides a simple and easy to use tool for mobile users to access real time information for pets at OC Animal Care. This free app is available on the App Store for Apple users and Google play for Android users.

Pet Track Features:

- Pet information is updated every 30 minutes
- Lost Pets can be sorted by intake date, city, breed and more to help owners and pets reunite quickly
- Adoptable pets can be saved to the user's "Watchlist" so that potential adopters can narrow down their list of potential pet matches
- Recently adopted, rescued and reunited pets are included so that the community can celebrate
- A map to the shelter provides easy directions from the users current location
