PAID INTERNSHIP PROGRAM GUIDELINES

Internships are designed to provide work experience that complements a student/recent graduate's specific area of academic study and career goals. The work experience should benefit and enhance the intern's education and professional objectives.

Interns may be hired at one of the three levels set forth below, based on their current enrollment in or recent graduation from one of the following academic/technical/vocational programs:

Level	Hourly Rate	Educational Requirement
Undergraduate Intern	\$15.00/hour	An Associate's or Bachelor's degree program
Graduate Intern	\$20.00/hour	An advanced degree program (Master's degree or above)
Technical Intern	\$20.00/hour	An accredited, post-secondary education or technical/vocational institution

Students can only be hired at the classification/level that corresponds with the intern's current educational level. Recent graduates must show proof that they are within six months of their post-graduation date to qualify for a paid internship.

Salaries will be reviewed annually to ensure compliance with federal and state minimum wage laws and to confirm that appropriate pay differentials between levels are maintained.
