

Trabuco Creek Channel Rehabilitation Project

Project Summary

OC Public Works will complete a routine rehabilitation project within the Trabuco Creek Flood Control Channel in the City of San Juan Capistrano. All work activity will occur within the channel. Residences located within close proximity to the project area may experience an increase in noise during regular working hours.

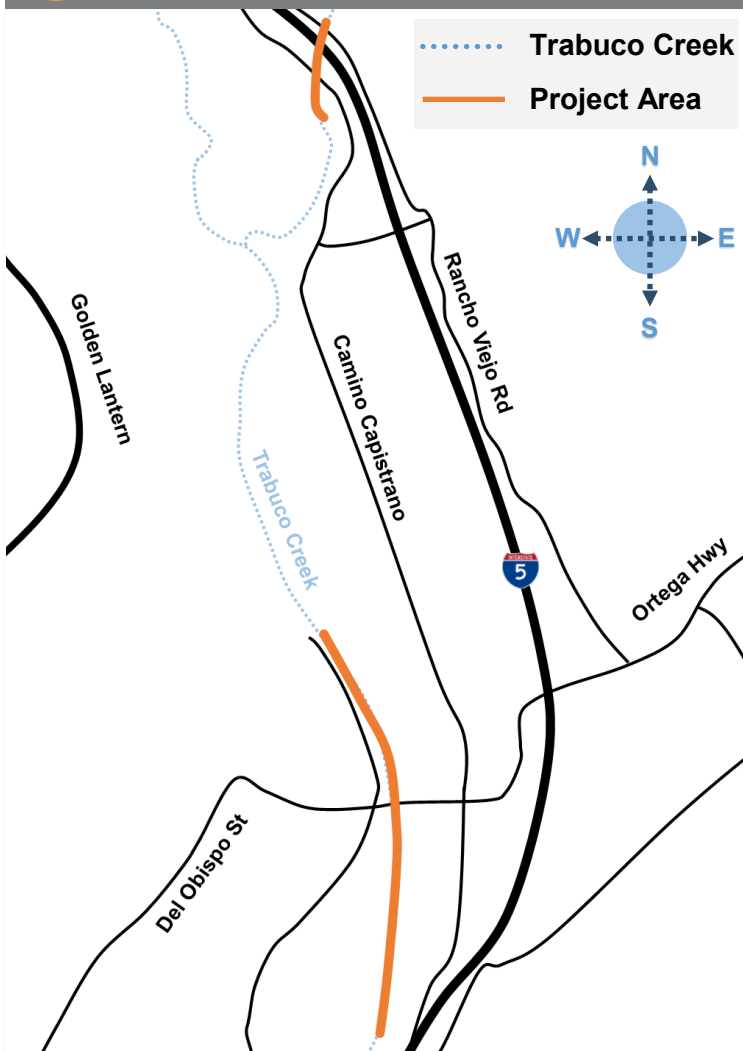

WHAT

The routine maintenance repairs include cleaning drains, repairing concrete and channel slopes, and removing silt and debris.

Area road users may experience slower moving traffic at times during regular working hours as local roads will be used as haul routes for equipment and materials.

WHERE

WHEN

Anticipated Construction Duration

June 10, 2019 — September 2019

Working Hours | Weekdays | 7 am — 4:30 pm

The construction schedule is tentative and subject to change due to weather and other factors.
